EDUCATION

New York University

Computer and Data Science - GPA 3.8/4

New York, NY

January 2024 - May 2027

Relevant Coursework: Deep Learning & LLMs, Agile & DevOps, Machine Learning, Parallel Computing, Data Science, Data Structures, Algorithms, Computer Organization, Linear Algebra, Probability & Statistics.

SKILLS

Languages: Python, SQL, JavaScript, Java, C/C++, HTML/CSS, Assembly
Tools/Frameworks: GCP, AWS, Firebase, Git, Docker, React, NodeJS, FastAPI, LangChain
ML/Data: PyTorch, scikit-learn, Pandas, NumPy, OpenCV, HuggingFace, SciPy, Matplotlib

PROJECTS

Neural Signal Classification Pipeline with Vision Transformer

Austin, TX

Personal Project

December 2025 - January 2026

- Developed production-ready ML pipeline using **PyTorch** and **Vertex AI** with distributed training, experiment tracking, and automated evaluation, achieving **0.96 AUC** on held-out test set.
- Built scalable data loaders, hyperparameter tuning, and integrated experiment tracking via Vertex Experiments.
- Implemented scalable data ingestion and preprocessing pipeline for **77k+** LFP trials with **BigQuery** + **GCS**.

AdaHealth - AI Voice Health Companion

New York, NY

Pulse NYC Agentic AI Hackathon - 1st Place

December 2025

- Built an AI health companion that conducts check-ins with elderly patients and logs transcripts for analysis.
- Developed a **React** dashboard for caretakers that tracks health/well-being scores and conversation metrics.
- Implemented backend pipeline using **Node.js** + **MongoDB** and integrated **OpenAI** models for real-time voice calls, semantic transcript analysis, and safety scoring.

Openbook CLI - Private Research Toolkit

New York, NY

Personal Project

November 2025

- Built a **TypeScript** CLI that indexes content into a **ChromaDB** vector store for **sub-second** retrieval.
- Orchestrated chat/query workflows across **Ollama** and cloud providers with configurable prompts, model routing, web search, and offline-first embeddings for privacy and low-latency queries.

Scout - AI Photography Assistant

New York, NY

Personal Project

September 2025

- Built an interactive mapping app with location search, annotation tools, and camera controls using **ReactJS**.
- Developed **RESTful API** backend with **FastAPI**, implementing file uploading, image processing, and AI integration with error handling and logging.
- Integrated **Google GenAI** for image generation using map annotations and camera settings for prompting.

EXPERIENCE

AI in Education - NYU Vertically Integrated Project

New York, NY

Student Research

Spring 2026

- Contributing to research on GenAI tool evaluation, student usage patterns, and learning impact.
- Working with LLMs and AI detection tools to assess capabilities and risks in real classroom settings.
- Prototyping ML-driven educational tools and data pipelines to support policy and product decisions.

Best Buy

Austin, TX

Sales Associate

October 2023 - January 2024

- Led training for 3+ new team members on customer engagement and sales techniques.
- Leveraged proprietary inventory and sales tools to analyze data from multiple stores and optimize sales strategies.
